

TPX PROTOCOL WHITEPAPER

ABSTRACT

In this research document, we introduce TPX, The TPX Coin provides users with versatile capabilities for blockchain interaction. TPX Coin, rooted in blockchain technology, is frequently utilized for various purposes including trading, swapping, storage in cryptocurrency wallets, and acting as a method of payment within the ecosystem.

TPX Coin is particularly well-suited to the Solana blockchain due to its inherent advantages, notably its capacity for rapid and cost-effective transactions. This feature positions TPX as a versatile and widely accepted payment method within the blockchain space.

OUR VISION

We realized that digital currency would impact the world in three main areas. Our vision is based on efficiency of digital currency and opportunity of equality. Payments can be frustratingly slow and expensive at times. Why does it take longer to wire money when it is just moving bits from one data center to another?

Our belief is that digital currency on smartphones will bring financial services to many people in the developing world, and this will help level the playing field. Our vision for the world in a single statement is Digital currency will bring efficiency and equality of opportunity in the world by creating an open financial system.

OUR MISSION

- We have developed this digital Token in such a way that it authorizes the common people and protects their basic rights.
- Our mission is to provide everyone with a decentralized Token system that is accessible to everyone with a smart device. We believe that a decentralized money system empowers people of every status.
- Our goal is to provide you with the benefits of our TPX Coin as a payment system are economic, practical and conceptual

SOLANA BLOCKCHAIN

Solana stands as a decentralized cryptocurrency computing platform renowned for its remarkable transaction speed, all while maintaining a robust commitment to decentralization. SOL, Solana's native token, plays a pivotal role in staking and covering transaction fees, additionally granting holders the privilege to participate in future decision-making through voting. Solana is a forward-looking entity poised to revolutionize the blockchain sector, harnessing cutting-edge technology to seamlessly process an astonishing 50,000 transactions per second.

TPX TOKEN

TPX, our groundbreaking Coin, stands at the forefront of innovation in the world of cryptocurrencies. Built on the robust Solana blockchain, TPX offers users lightning-fast transaction speeds and cost-efficient operations, making it an ideal choice for those seeking seamless blockchain interactions. TPX is a DeFi project built on Solana with simple allocation & Distribution.

TPX will create a token-based ecosystem by transforming a former pipeline business into a platform-business model based on blockchain technology. But TPX isn't just about speed and efficiency; it symbolizes community engagement and inclusivity. Whether you're a crypto enthusiast, investor, or simply curious about the blockchain world, TPX opens the door to a dynamic and exciting ecosystem where possibilities are endless.

Join on this transformative journey with TPX as we redefine the way you experience digital currencies.

WHY CHOOSE TPX?

TPX will provide everyone with equal opportunities for investments. Our distribution ensures safety and reliable investment with very little investment.

FUTURE PLANS AND SURVIVAL OF TPX

TPX is not just a token developed for trading. The team of developers have contributed their best to make this Token dynamic in nature for our decentralized reality world. We have created this token for the use and benefit of everyone around the globe.

ROAD MAP

TOKEN DEVELOPMENT AND CONCEPTUALIZATION

- Research and conceptualize the TPX Coin as a versatile blockchain interaction tool.
- Develop the fundamental features and functionalities of TPX Coin, rooted in Solana blockchain technology.
- Formulate the core principles of efficiency and equality in financial services.

TOKEN CREATION AND TESTING

- Build and test the TPX Coin on the Solana blockchain to ensure fast and cost-effective transactions.
- Verify the security and integrity of the TPX Coin smart contract.
- Establish a robust token structure and economic model to support its ecosystem.

COMMUNITY ENGAGEMENT AND EDUCATION

- Initiate community engagement efforts to spread awareness about TPX Coin's potential and benefits.
- Educate the community about the significance of digital currency in creating financial inclusion and equality.

TOKEN LAUNCH ON DECENTRALIZED EXCHANGES

- List TPX Coin on popular decentralized exchanges (DEX) to make it accessible for trading and swapping.
- Enable users to trade TPX Coin and experience its efficiency and speed firsthand. Facilitate liquidity provision on DEX platforms to ensure smooth trading experiences.

BUILDING A STRONG AND ENGAGED COMMUNITY

- Foster a strong and active community around TPX Coin through social media, forums, and events.
- Encourage community-driven initiatives, discussions, and feedback to shape the future of TPX Coin.
- Establish a support system for users to address inquiries and concerns.

INTEGRATION OF TPX COIN IN EVERYDAY TRANSACTIONS

- Collaborate with partners and merchants to integrate TPX Coin as a method of payment within the ecosystem.
- Promote the adoption of TPX Coin for various transactions, from everyday purchases to cross-border remittances.

LONG-TERM SUSTAINABILITY AND GROWTH

- Ensure the sustainability and growth of TPX Coin by adapting to evolving market trends and regulatory changes.
- Uphold the commitment to efficiency and equality in financial services, maintaining TPX's role as a dynamic and inclusive digital asset.

OUR TEAM

We have a solid team with both traditional wall street finance and cryptocurrency experience. We have a track record of successful startups under our belt.

DR. WILLIAM KACHELE - PRESIDENT OF TAPP COIN

Dr. William Kachele President of Tapp Coin, Inc received a Bachelor of Arts and a Bachelor of Science Degree in his undergraduate studies at the University of Nevada, Reno and he received his Doctorate of Dental Medicine at Oral Roberts University School of Dentistry.

JERAD R. SANDERS - CO-FOUNDER AND CHAIRMAN OF TAPP COIN

Jerad R. Sanders, Co-Founder and Chairman of Tapp Coin, Inc. and a successful entrepreneur, Jerad has a passion for starting new businesses. Jerad created a R&D company that was focused on the development of non-invasive, complementary medical therapies.

ANDREW M. SANDERS - CEO FOR TAPP COIN

Mr. Sanders also is the Chief Executive Officer at Yodite, LLC and President & Director at Hubcast Solutions

DEVELOPMENT TEAM

MD KAMRUZZAMAN

Software Engineer, Chief technical officer, Kerkuil Blockchain, Golang, Node.Js

AL AMIN

Software Engineer Chief operational officer, Kerkuil

CONCLUSIONS

This white-paper has been prepared to provide the most detailed information about our Token TPX concerning its key characteristics and features, the most important technologies used in its development, and risks associated with it. We have succeeded in finding out and establishing the Proof-of- Stake consensus.

Over time, numerous changes unfold, and one notable example is the ever-evolving landscape of cryptocurrency. Cryptocurrencies, digital currencies that continue to gain momentum, are experiencing constant growth. This rapid evolution in the crypto domain witnesses the emergence of new Coins and currencies daily.

In the context of this project, our focus is squarely on the TPX Coin, which caters to a distinct audience compared to the highly technical enterprises prevalent in the cryptocurrency space. Our primary emphasis centers on building and nurturing a vibrant community.

It's important to note that this network operates in a decentralized manner, embodying the principles of decentralization.
